EXPERIMENT - 11

AIM :

To design and configure a simple internetwork using a router in Cisco Packet tracer.

PROCEDURE :

1) Open Cisco Packet Tracer and create a new topology.
2) Add 2 routers, switches and 3-4 PCs for each network.
3) Connect PCs to switches to routers using ethernet cables.
4) Assign static IP addresses and subnet mask to all PCs.
5) Configure IP address on router interface.

Code :

```
enable
configure terminal
interface FastEthernet 0/0
ip address <IP> <Subnet Mask>
no shutdown
exit
interface FastEthernet 0/1
ip address <IP> <Subnet Mask>
no shutdown
exit
```

6) Configure default gateway of each PC with IP address of connected router interface.
